

Heating unit 3x2kW A2365

Application: steam generators Electric heater for stainless steel tanks

Parameters

Voltage [V]: 3x230 Y

Power [W]: 6000

Material of sheath: stal stopowa Cr/Ni

Tube diameter Ø[mm]: 8,5

Electrical connections: zacisk z gwintem M4

Working environment: Woda

Thread: G 1 1/2"

Application: podgrzewacze wody

Length [mm]: 390
